Most questions on the IPEDS surveys require students to be reported as Male or Female.
For any student who does not have a reported 'M' or 'F' value in student_gender_institution,
we must allocate them to Male or Female to respond to this requirement.

Students in this population whose PIDMs are odd are allocated to 'M' and those with even PIDMs are allocated to 'F' in
the student_gender_ipeds field.

There is a new question on this IPEDS survey that asks, of those students that were allocated as 'M' or 'F' in the rest of
the survey,

how many of them were Gender Unknown and how many of them were Another Gender?
SDM does not contain consistent data for all institutions to allow the System Office to populate
this question for you, so keyholders are responsible for completing this question.

To assist you in responding we are providing frequency tables of student_gender_institution and student_gender_desig
for the population in question.

You may use the numbers we have provided here to respond, or you may use your own data system.

It is important that your response totals agree with the total number of students who are allocated as 'M' or 'F' in the rest
of the survey.

However, please note that if you have counts in the Another Gender category smaller than 5, those should not be
reported.

In that case, your final total may not agree.

Depending on how you track these data locally you may not be able to differentiate between
Gender Unknown or Another Gender values, and in this case, one option is to report totals for Gender Unknown.
