

# Student Preparedness Self-Check

**Are you prepared?** Use the self-check guidance below to see where you may need to improve your preparedness and readiness while on campus.

- I have updated my cell phone contact information in Banner for RamAlert so I can receive emergency alerts via text message.
- I have programmed 336-750-2323 into my phone as the phone number for RamAlert, and I am familiar with campus emergency communication methods.
- I have downloaded the Rave Guardian application to my phone and I have familiarized myself with the capabilities of Rave Guardian.
- I know how to contact WSSU Police and Public Safety via 336-750-2911 and through the Rave Guardian application.
- I have familiarized myself with campus emergency procedures like building evacuations, active shooter response, and severe weather awareness, available online at [www.wssu.edu/oem](http://www.wssu.edu/oem).
- I have entered my emergency contact information and emergency medical information in my cell phone. For iPhone users this is done in the Health app, and for Samsung users this is done in the Contacts app.
- I know more than one way out of every building where I have classes. If one exit is blocked, I can get out of the building using a different exit.
- I know where to shelter in different locations on campus in case of severe weather, such as a tornado. For a severe weather shelter area, I know to avoid rooms with windows and areas where there might be flying glass, and rooms with exterior walls or high ceilings. I know how to get to the lowest level of the building I am in.
- I have downloaded the WeatherSTEM application so I can see on-campus weather conditions and weather forecasts at any time.
- I have an emergency kit that includes a flashlight and batteries, a first aid kit, and other personal preparedness items.
- I know who the housing staff are for my residence hall in case there is an emergency or other issue. I also know how to contact the housing staff in my residence hall.
- I know how to get to the A.H. Ray Student Health Center if I get sick, and I know how to contact them through the Mediat portal or via 336-750-3301.
